Campus Connection

Is your son or daughter a successful high school athlete?

Is your son or daughter a successful high school *student*?

Are they interested in continuing their playing career after high school?

Are sports a way to help meet rising college expenses?

Not sure how to be certain you find the right school and the right school finds *you*?

Confused by the details of the recruiting game?

Help is available!

What You Should Know

Many athletes are overlooked because they do not understand what recruiting is all about.

- There are two reasons why a qualified high school athlete is not recruited: They are not qualified athletically, academically, or, more likely,
- The right coach does not hear about the right athlete.

The key to receiving an offer is *knowing how to navigate the recruiting game!!*

Opportunities are there! 1200 colleges field men's and women's basketball teams, 1000 schools have men's and women's soccer, 600 schools have men's and women's track, Over 1000 schools sponsor baseball and over 800 field a softball team!

How it works

Most existing recruiting services charge families anywhere from \$400 to over \$2,000 for their service.

The Campus Connection System teaches athletes and their families how to navigate this process on their own for pennies on the dollar!

Families can choose training and coaching in your home or at convenient group seminars.

You're not alone after the training is complete. Our program includes follow-up support as part of the training package!

Call or E-mail for more information about the Campus Connection System!
